Authentic Dutch Door Hardware

Dutch doors are one of the most decorative and distinctive of early door types. Divided in the middle, the top half swings wide on sunny days while the lower half keeps children and pets where they belong. The special hardware for this type of door, listed below, is authentic to the last detail. Hand wrought for lifetime wear.

DUTCH DOOR QUADRANT

7–A most attractive and sturdy device for fastening upper and lower sections of Dutch Door together so it swings as a unit. 6" high, 4½" wide. Available for (A) right or (B) left hand door. Consult your builder or send sketch of opening $22.50

BEFORE ORDERING LATCHES:
DOORS MUST HAVE PLAIN TRIM-MOUNTED FLUSH! Be sure your builder understands this or he will have trouble mounting latches or hinges.

To visualize how your door hardware will look: Stand in front of a door. If door opens AWAY from you, the grip design and thumbpiece will be on your side of door. Hinges and back latch assembly will be on other side. If door opens TOWARD you, the back latch assembly and hinges will be on your side and the grip and thumb pad will be on other side. This is because the latch bar in the regular assembly extends beyond the door to engage the strike on door casing, so door can only swing from this side. On closet doors which open toward you, or where the decorative effect of the grip would be lost on the inside, you may use a Closet-Type back latch (Described below) which allows grip and hinges to be located on side of door that opens toward you.

*Latches are available in two types of installation. Check carefully for the group that meets your needs.

*GROUP A – Complete with back latch assembly and long thumb piece. Can be used alone or with #11 Lock.

*GROUP B – Design, grip and short thumb piece only. Door knob required on inside of door. To be used with #10 Front Door Lock.

IMPORTANT

Parcel Post regulations restrict the size of packages and the weight allowed to 40 lbs. between first class post offices. If your order comes to more than 40 lbs., figure it as two or more packages. Single items weighing more than 40 lbs., or that are too bulky for parcel post, must go Express Collect. Where necessary we will make two packages if we can, or we will ship Express Collect and refund the money sent for postage. If you live on a rural route, your packages can weigh up to 70 lbs.

Where possible, we use UPS.

RETURNS

If you have occasion to return anything to us, be sure to write a letter explaining fully the reason for the return, attach a $.10 stamp to the envelope and affix the letter to the outside of the package. This will assure that your shipment receives prompt attention.

EXPRESS COLLECT

Where an item is marked "Express Collect" in the catalog it means that ONLY the SHIPPING CHARGES on this item will be collected at its destination. Please remit the price of the item with your order.

EASY PAYMENT PLAN

Now you may buy from Old Guilford Forge and pay over a ten month period — if your order totals $75.00 or more.

Send for our Credit Application Blank.

Please add $.50 handling charge for orders under $5.00.

We welcome this chance to serve you. If for any reason you are not completely satisfied with your purchase your money will be refunded promptly.

Prices effective Aug. 15, 1975 to Jan. 15, 1976.
